

Structural Engineering 2010

The monthly packages below include everything that is available in the Gulf region i.e. basic salary + accommodation allowance + car allowance. There are very few employers in the Middle East that pay for school fees or other associated costs, and funds for this must come out of the individual's basic salary. The only "extras" that would be added would be health insurance for the individual and/or family) and 1 economy return flight to and from the point of origin for the individual and/or family).

Title	AED pm	AED pm	AED pm
